## Skills

---

Proficient with:

HTML, CSS, JavaScript, TypeScript, React, Redux Toolkit, SASS, Swift, Figma

Experience with:

Next.js, Firebase, Git

## Projects

---

**Calendar Project** React, Redux Toolkit, Firebase

- This is a calendar application that allows users to create custom events
- All events have CRUD functionality and are updated in real time
- All accounts are created using Firebase Authentication and all user data and events are stored on a Firestore Database

**Landing Page** HTML, CSS, JavaScript

- Fully responsive landing page. Project provided by Frontend Mentor

**Shopping Cart** React, TypeScript, Redux Toolkit

- Fake e-commerce website that allows users to add items to their cart and adjust the quantity of products

**Tip Calculator** HTML, CSS, JavaScript

- Allows users to input bill amount, number of people and tip percentage to divide the bill.
- The design for this project was provided by Frontend Mentor

**Pixel Art Editor** HTML, CSS, JavaScript

- Simple pixel art editor that allows users to select a grid size and draw pixel art
- The selected grid size is calculated with JavaScript and displayed using the HTML Canvas element
