Skills

Proficient with:

HTML, CSS, JavaScript, TypeScript, React, NextJS, Redux Toolkit, SASS, Swift, SwiftUI, Figma

Experience with:

Angular, Firebase, Git, UIKit

Projects

Flashcards Application NextJS, TypeScript

- This is a full-stack application that allows users to create custom flashcards sets to assist in studying
- Users can add, edit and delete cards in their flashcard set if a change needs to be made
- All data is saved using local storage and persists on refresh

Calendar Project React, Redux Toolkit, Firebase

- Built a full-stack calendar application that allows users to create events and add to a day of their choosing
- All events have CRUD functionality and are updated in real time
- Users are authenticated using Firebase Authentication and all data is stored on a Firestore Database

Landing Page HTML, CSS, JavaScript

- A fully responsive landing page
- Demonstrated skills with CSS Flexbox and CSS Grid
- This project was provided by Frontend Mentor

Shopping Cart React, TypeScript, Redux Toolkit

- E-commerce site that allows users to browse items and add and remove from their cart
- All state is managed using Redux Toolkit
