Skills

Proficient with:
HTML, CSS, JavaScript, TypeScript, React, Redux Toolkit, SASS, Figma

Experience with:
Next.js, Swift, Firebase, Git

Projects

Calendar Project React, Redux Toolkit, Firebase
- This is a calendar application that allows users to create custom events
- All events have CRUD functionality and are updated in real time
- All accounts are created using Firebase Authentication and all user data and events are stored on a Firestore Database

Shopping Cart React, TypeScript, Redux Toolkit
- Fake e-commerce website that allows users to add items to their cart and adjust the quantity of products

Tip Calculator HTML, CSS, JavaScript
- Allows users to input bill amount, number of people and tip percentage to divide the bill.
- The design for this project was provided by Frontend Mentor

Pixel Art Editor HTML, CSS, JavaScript
- Simple pixel art editor that allows users to select a grid size and draw pixel art
- The selected grid size is calculated with JavaScript and displayed using the HTML Canvas element
